CONTENTS OF VOLUME XVIII

PAGE

Toshizô Matsumoto—On the Group of Zero-Sequence 1

Usaburo Yoshida and Kazuo Koyanagi—Melting of Metal-Crystals at their Boundaries, and a Theory of Recrystallization of Metals 9

Hajime Kotô—On the Crystal Structure and Crystalline Configuration of the Normal and Modified Si-Al Alloys 17

Tunezô Satô—An Integral Equation with a Parameter 35

Joe Ueta—Graphical Computation of Jupiter's Perturbation on Asteroids 41

Tunezô Satô—On Abel's Integral Equation 63

Zensuke Muro—Difference in the X-Ray Diffraction Patterns of some Isomers 79

Tadao Namekawa—A Study of the Minor Fluctuation of the Atmospheric Pressure (II) 83

Kiugoro Kitagawa—Sur le Dispersement et l'Écart Moyen de l'Écoulement des Eaux Souterraines
III. Expériences Faites dans le Sol 129

Toschima Araki und **Michinori Kurihara**—Über den inneren Aufbau der Weissen Zwerge 137

Shigeharu Nitta—A Fundamental Investigation of Motion of a Vertically Constrained Gyroscope 155

Bunsuke Takei—Net Density of Starch 169

Tadao Namekawa—A Study of the Minor Fluctuation of the Atmospheric Pressure (III) 173

Takaharu Nomitsu—A Theory of Tunamis and Seiches produced by Wind and Barometric Gradient 201

Yoshiaki Matsunaga—Net Density and X-ray Investigation of Carbon 215

Takaharu Nomitsu—Surface Fluctuations of Lake Biwa caused by the Muroto Typhoon 221

Tadao Namekawa—A Theory of the Annual Variation of Temperature of Ocean or Lake 239

Takaharu Nomitsu and **Katakusu Habu**—Proper Oscillations of

the Sea of Continental Shelf 247

Kenzô Sassa—Volcanic Micro-Tremors and Eruption-Earthquakes (Part I of the Geophysical Studies on the Volcano Aso) 255

Yoshikazu Toyohara—A Study on the Coastal Ground Water at Yumigahama, Tottori . . . . . *(No. 5) 295

Michinori Kurihara—Über die Turbulenz in der Sonnenatmosphäre . . . . . *(No. 6) 295

Kenzô Tanaka and **Hshi Yu Tien** (田時雨)—Transformation from Vitreous to Metallic Selenium . . . . . *(No. 6) 309

Chullchai Park (朴哲在)—A Study of the Carbonization of Ramie Cellulose by means of X-Rays and the "Net Density Method" 311

Masami Ichinose—On the Arrangement of Micro-Crystals of Silica in the Onyx 315

Tadao Namekawa—A Study of the Minor Fluctuation of the Atmospheric Pressure (IV) 317

Keisaku Mitsui—Catalytic Reduction of Aromatic Carboxylic Acid Esters under High Pressure and Temperature 329
